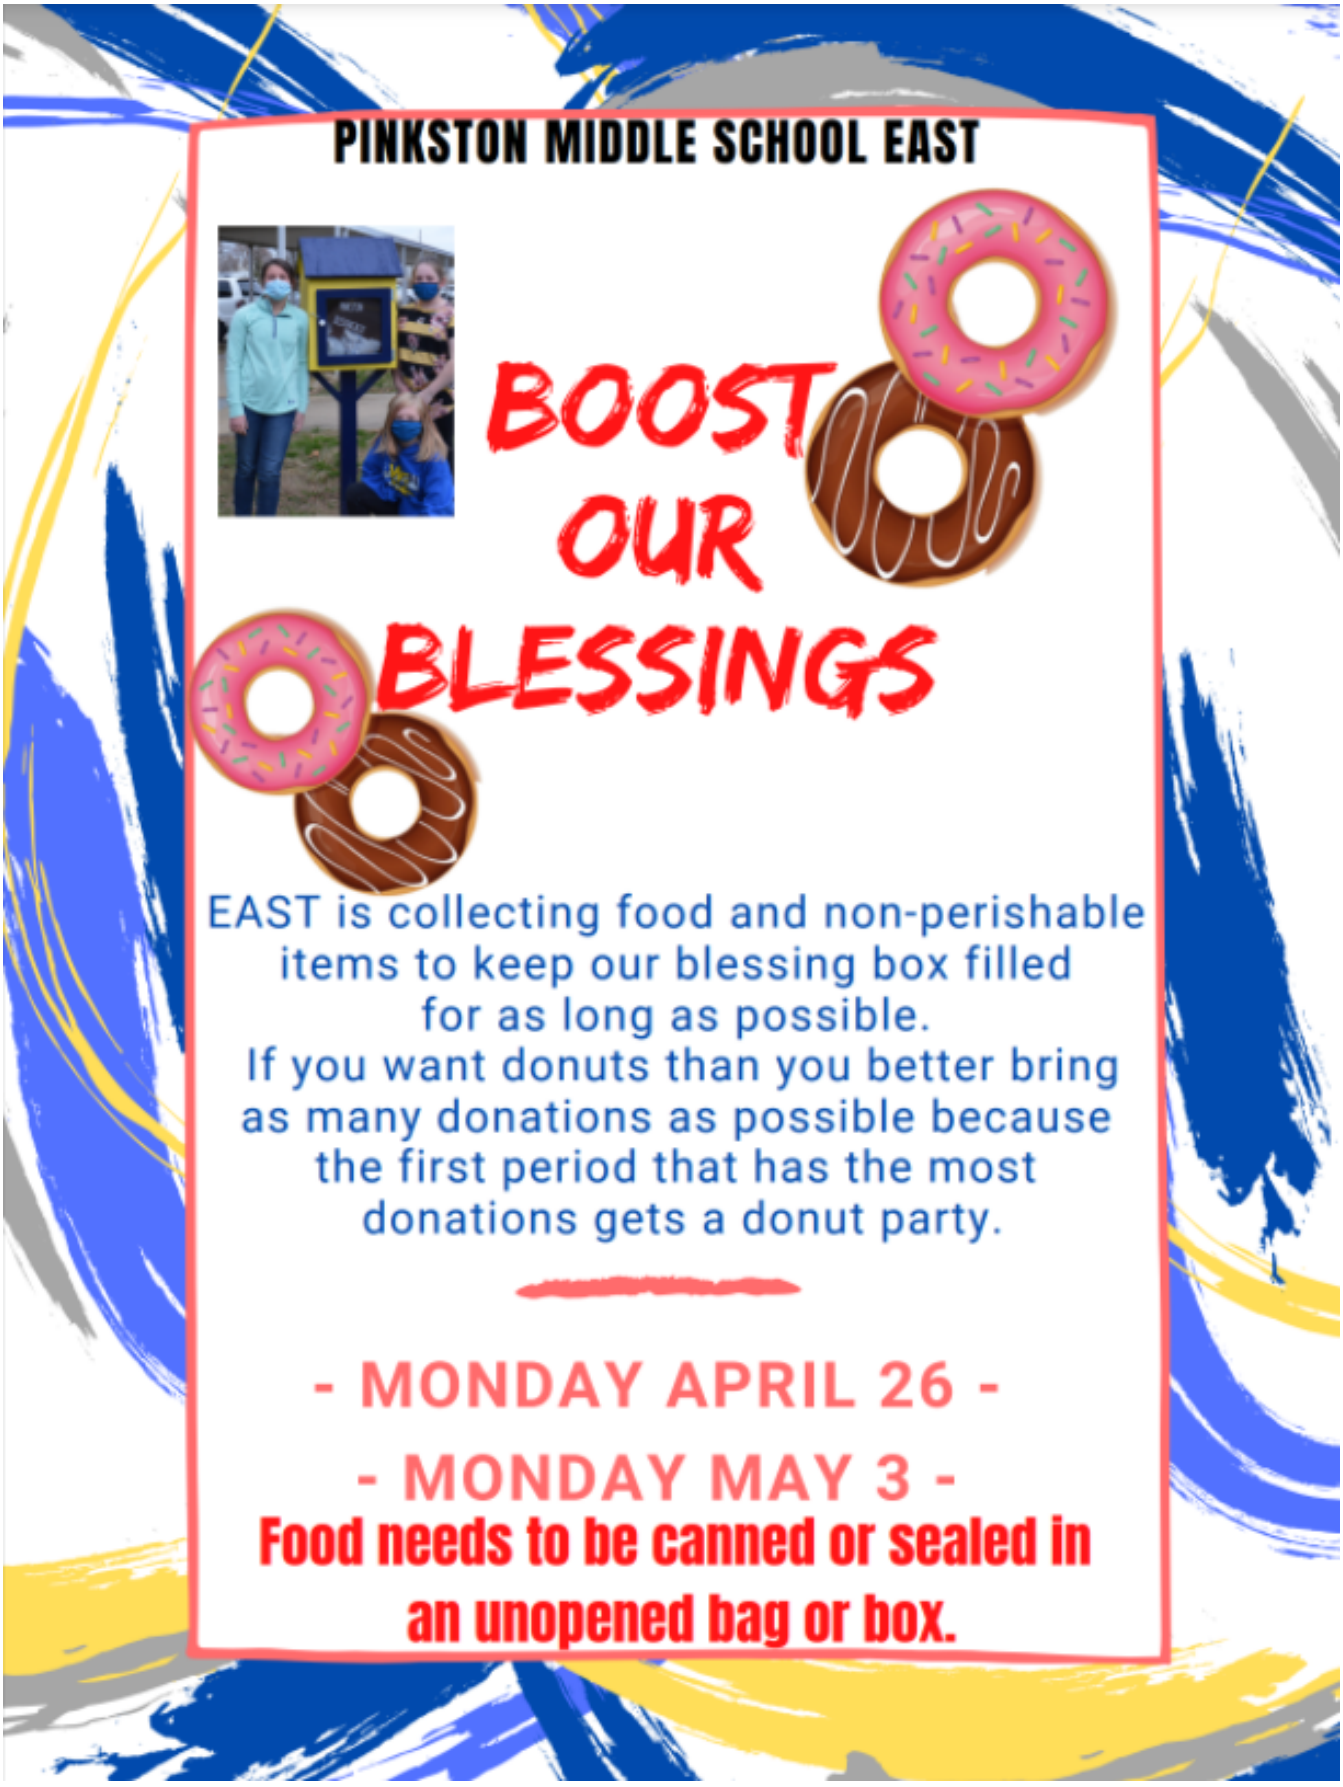
Pinkston student Simone Moore says her group's EAST project this year was to transform an old lending library into a suitable blessing box. "Now we are trying to keep it full for as long as possible, so we decided to do a food drive to help our community," she said.



Pinkston Spring Picture Day is Friday, April 23, 2021

REGISTER NOW FOR 2021 SUMMER CELEBRATION!!!

For More info call the Christian Life Center 870-425-5421.

Join us. It is going to be a BLAST!

It's time to register for Mountain Home Public Schools' Summer Learning

Grades K-8
June 7- June 24
Monday-Thursday 8 a.m.- 3 p.m.
Registration Deadline: May 28
Click here for more information and to sign up today!

IT'S FUN!
MHPS Summer Learning provides fun for your child. Students will take part in activities including computer science, coding, art projects, games, crafts and other enrichment activities.

IT'S LEARNING!
Your child will sharpen the math, reading, and writing skills needed to succeed in the next grade and beyond.

IT'S NO-COST!
Meals are included. Teachers will lead your child each day in exciting activities inside and outside the classroom.

Additionally this year:

Intro to Computer Science:
Using various resources, we will give a broad overview of what computer science is and how it is involved in our everyday lives. We will discuss basic concepts, such as, coding, algorithms, binary, robotics, space travel and more. The students will learn that computer science is not just people in lab coats or computer nerds. Computer science is now in healthcare, automotive, agriculture and many other industries.

3D design and production:
https://classroom.weareprintlab.com/
Using the PrintLab curriculum, we will teach the students to design their own 3D models using Tinkercad. They will then bring the design to life using 3D printers. Students will design basic shapes and models to gain a better understanding of the design process and software. They will then be given a project or problem to solve using what they have learned.

Programming with Sphero:
https://youtu.be/DxFNCRYbMe4
Using small spherical robots, students will understand the basic concepts of programming, problem solving and computational thinking. They will play STEAM-inspired games with the Sphero Play app and eventually advance to programming with Block Based Coding or Javascript in the Sphero Edu app
