Agriculture

To the right are students who participated in the spring judging teams. Standing left to right are Leroy Hammock, Robert Dahlke, Lester Butterfield, George Wicker, Marvin Martin, and Don Willard. Kneeling left to right are Curtis Brooks, Duane Hawkins, Jimmy Bryant, Toby Wright, Jr. Deatherage, Tommy Studdard, and Milton Dahlke.

In the past four years Mountain Home built an impressive record in the North East District at Jonesboro by scoring more points than any other of the ninety-three schools entered. This year the Mountain Home chapter was transferred to the North West District with headquarters at Russellville. In the farm shop a number of woodworking tools, both power and hand tools were added to the equipment. This department has been built to the point that shop instruction has become a larger part of classroom training. Many of the boys built furniture for their mothers' Christmas presents.

Shown at left with their woodwork are: Jr. Deatherage, Curtis Brooks, Robert Dahlke, Jimmy Bryant, and Leroy Hammock. The chapter completed many articles in this department; among them was a magazine rack for the library.
