

**The Health Occupations Students of America (HOSA) host the American Red Cross blood drive every fall and spring at Mountain Home High School Career Academies. Every year a blood donation goal is set by the American Red Cross. If the goal is met, the American Red Cross awards a scholarship to a senior student/s that have either donated or worked the blood drive.**

**In order to donate, students must be at least 16 years of age and have parental consent. They must also meet certain height/weight and medical requirements set by the American Red Cross.**
