Notes from Nurse Wendy

- The common cold and allergies are upon us. Some symptoms plaguing our students are: sniffles, sneezes, sore throat, an annoying cough. Please remind your child that prevention begins with good hand washing and keeping our hands away from our eyes, nose, and mouth.
- Also, our bodies need rest and hydration to fight off colds as quickly as possible.
- Student with a fever of 100 degrees and higher will be sent home. Students need to be fever free for 24 hours without any medication before they return to school.

****NEW SECURITY IN ALL MOUNTAIN HOME SCHOOLS ****

All visitors coming to Hackler will notice a new security measure as they enter the front lobby. You will now be required to buzz the office by pressing the blue button on the panel that sits beside the fire extinguisher box. It will ring into the office, and the attendant will ask how she may help you. After the reason for your visit has been established, the magnetic lock will be released and you will be able to enter through the door. If you're going to be traveling to lunch or a conference, be prepared to have your driver's license scanned and a name badge printed. Please make sure this badge is visible during your stay. Exit through the front office and return your badge to the secretary, and she will log you out of the building.

For your convenience, a drop off table has been placed by the door. Fill out the form and attach it to your item and it will be promptly delivered.

If your child is coming in late, a tardy form has been placed on the table also for your convenience. After completing the form, your child will take the yellow copy to the homeroom teacher and the white copy can be placed in the tray. After completing the form, press the blue button and the attendant will release the door for the student to travel to class.
