

AMI DAY 3

Social Studies

What are 2 things that had to happen before people could develop civilizations?

Science

You are a genetic engineer. You have created a new animal. You have given it an adaptation to help it survive. Give your animal a name and its adaptation. How does that adaptation help your animal? **BONUS:** draw a picture of your animal.

Language Arts

Write a short poem, minimum 4 lines, about what you see outside. Poem can be rhyming or free verse.

Math

The highest point in cartoon land is Mt Hockalugie, which is 47,265 meters high. Mt. Nemo, in the depths of the ocean is 33,488 meters high. Mt. Whatsit, on the planet Hurl is about as tall as Mt. Hockalugie and Mt. Nemo together.

1. How much taller is Mt. Hockalugie than Mt. Nemo?
2. About how high is Mt. Whatsit on the planet Hurl? Round answer to the nearest hundred.
