

## AMI DAY 1

### Social Studies

Why were rivers so important to ancient civilizations? Were rivers always beneficial to ancient civilizations? If not, why not?

### Science

Record the temperature and weather conditions for the day. Which kind of front moved in to our area and produced the weather?

### Language Arts

Look outside. Describe what you see in a paragraph. Remember to use descriptive language.

### Math

What is the perimeter, area, and volume of your living room?

Perimeter = add length of all the sides: area = length x width: volume = area x height
