

# Science Snow Packet Day 3

## 1. CORE IDEA

This line graph shows what type of change over time?

## 2. ENGAGING IN ARGUMENT FROM EVIDENCE

Estimate what hour you think that 50% of egg whites are digested.

Give specific evidence from the graph to support your answer.

## 3. PATTERN

Based on the pattern of the graph, predict what percentage of egg whites would be digested after 28 hours.

Give specific evidence from the graph to support your answer.
