

Attention Parents and Guardians,

Next school year, MHPS will have all your child's standard school supplies available for purchase from the district for \$20 per student. The supplies will be delivered directly to the child's homeroom class. Backpacks and lunchboxes will not be included in \$20 school supply purchase.

Bridges of Mountain Home will still host its Back-to-School Bazaar at the end of the summer, and haircuts, dental, and vision screenings will still be available there. There will also be an area for parents to sign up if they will need assistance paying the \$20 per child supply fee.

Each school building has now begun accepting payments for supplies, and if you have children in different buildings, you can pay for all your children at one location.

The district is also working on a digital payment option. We will release more information on that option when it comes available.
