## DRY RUN CREEK

We are fortunate to have Dry Run Creek as a wonderful resource for kids to experience the thrill of catching world class trout.

Dry Run Creek introduces kids to the various trout species, what they eat and why clean cold water is vital to their health and survival.

And sometimes parents and children come to Dry Run Creek for respite from life threatening illnesses.

There is something truly special about connecting kids with trout fishing

on Dry Run Creek and this summer about 150 kids have enjoyed our Arkansas White River Chapter TU and Friends of the North Fork and White Rivers Youth Outreach Program on Dry Run Creek.

Please help us increase the opportunities for kids to enjoy this experience and to protect and enhance this wonderful resource by joining and supporting Arkansas White River Chapter TU and Friends of the North Fork and White Rivers.

Thank you
