

ITEM	MAINTENANCE INTERVAL (whichever comes first)		REMARKS
	Hours	Calendar	
Clean engine surroundings and components from debris		Pre-Ride	Clean. Do not pressure wash
Cab safety nets		Pre-Ride	Check for tightness, damage and operation
Seat belts		Pre-Ride	Check for damage and operation
Shift linkage		Pre-Ride	Make sure Park will fully engaged. Adjust if necessary
Coolant hoses		Pre-Ride	Inspect. Made adjustments or replace as needed
Coolant level		Pre-Ride	
Brake fluid level		Pre-Ride	
Brake system/Throttle pedal travel		Pre-Ride	
Fuel and oil level		Pre-Ride	
Steering		Pre-Ride	
Front suspension		Pre-Ride	
Rear suspension		Pre-Ride	
Tires		Pre-Ride	
Wheels/fasteners		Pre-Ride	
Frame and fasteners		Pre-Ride	
Headlamp & tail lights		Pre-Ride	
Axle and steering joint boots		Pre-Ride	
Change engine oil (initial break-in only)	5 hr	-	
Check Air filter	10 hr	Monthly	Clean or replace if necessary
Check 800 valve clearance	25 hr	3 Months	Check clearance. Adjust if necessary
Brake pad wear	25 hr	3 Months	Inspect periodically
Service or replace air filter	25 hr	3 Months	Inspect and clean. Replace as needed
Change engine oil and filter (initial break-in only)	25 hr	-	Change engine oil and filter

Change engine oil and filter (2 nd change only)	25 hr	-	Change engine oil and filter
Battery	25 hr	3 Months	Check terminals and water level
Transmission/gearbox oil	25 hr	3 Months	Inspect level, change yearly
Rear differential oil	25 hr	3 Months	Inspect, lubricate, change yearly
Front differential oil	25 hr	3 Months	Inspect level, change yearly
Change engine oil and filter (reoccurring change)	50 hr	6 Months	Inspect level often, change every 6 months
Change engine oil (reoccurring change)	100 hr	12 Months	Inspect level often, change yearly
Check engine oil cooler fins	100 hr	12 Months	Clean as needed
Lubricate driveshaft u-joints	100 hr	12 Months	Lubricate Zerk fittings
Shift linkage	100 hr	12 Months	Inspect, lubricate, adjust
Steering	150 hr	12 Months	Inspect, lubricate
Throttle cable	150 hr	12 Months	Inspect, adjust, lubricate, replace if needed
CVT belt	150 hr	12 Months	Inspect. Replace if needed
Check 800 valve clearance	150 hr	12 Months	Check clearance. Adjust if necessary
Fuel system	250 hr	24 Months	Check for leaks. Change fuel filter
Replace engine coolant	250 hr	24 Months	Drain and replace
Engine mounts	250 hr	24 Months	Inspect
Wiring	250 hr	24 Months	Inspect for wear. Apply dielectric grease to connectors subject to water, mud, etc.
Spark plugs	250 hr	24 Months	Replace as needed
Ignition timing	250 hr	24 Months	Adjust as needed
Exhaust system	250 hr	24 Months	Check for leaks and operation
Brake fluid	350 hr	36 Months	Drain and change fluid
CVT Clutch	350 hr	36 Months	Inspect, clean, replace worn parts
Wheel bearings	350 hr	36 Months	Inspect, replace as needed
Toe adjustment	350 hr	36 Months	Inspect, adjust as needed

PERIODICAL MAINTENANCE SCHEDULE

INTERVAL	MONTHS	1	3	6	12
	MILES	INITIAL 120	EVERY 600	EVERY 1200	EVERY 2400
Muffler & Exhaust Pipe Bolt, Nuts		T	T	T	T
Valve Clearance		I	-	I	I
Air Cleaner		-	C	C	R
Air Cleaner Vent Tube			I	I	I
Engine Idle RPM		I	I	I	I
Spark Plug		-	-	I	I
	Replace Every 4000 MILES)				
Engine Oil		R	-	R	R
Oil Filter		R	-	R	R
C.V.T Belt	(Inspection Every 600 Miles (replaced if necessary)				
Fuel Tube		-	I	I	I
	Replace Every 4 Years				
Throttle Cable Play		I	I	I	I
Bolts and Nuts		T	T	T	T
General Lubrications		-	L	L	L
Muffler Plumbago	Visual Inspection Every 1200 Miles (replaced or tighten if necessary)				

Code: C ~ Cleaning (replaced if necessary) I ~ Inspection, cleaning, and adjustment
 L ~ Lubrication R ~ Replacement T ~ Tighten
