Pinkston Library Spring Book Fair May 7th thru May 14th

ALL Pinkston Students, Parents, Grandparents & Guardians... the Pinkston Library is having their Spring Scholastic Book Fair starting Friday, May 7 thru Friday, May 14. We will be open during the school day for students, parents, grandparents & guardians to shop from 8am to 3:30pm. We accept cash, checks (payable to Pinkston Middle School) or debit/credit cards. Scholastic's eWallet is a digital payment account thru the link below for your student that you may set up instead of them bringing cash money. No worries on losing money between home and school when using eWallet. Hope to see everyone at the book fair!

Link for online shopping and setting up eWallet for your student:

May 10 thru May 15

It's time to register for Mountain Home Public Schools' Summer Learning

Grades K-8

June 7- June 24

Monday-Thursday 8 a.m.- 3 p.m.

Registration Deadline: May 28

[Click here](#) for more information and to sign up today!

IT'S FUN!

MHPS Summer Learning provides fun for your child. Students will take part in activities including computer science, coding, art projects, games, crafts and other enrichment activities.

IT'S LEARNING!

Your child will sharpen the math, reading, and writing skills needed to succeed in the next grade and beyond.

IT'S NO-COST!

Meals are included. Teachers will lead your child each day in exciting activities inside and outside the classroom.

Additionally this year:

Intro to Computer Science:

Using various resources, we will give a broad overview of what computer science is and how it is involved in our everyday lives. We will discuss basic concepts, such as, coding, algorithms, binary, robotics, space travel and more. The students will learn that computer science is not just people in lab coats or computer nerds. Computer science is now in healthcare, automotive, agriculture and many other industries.

3D design and production:

<https://classroom.weareprintlab.com/>

Using the PrintLab curriculum, we will teach the students to design their own 3D models using Tinkercad. They will then bring the design to life using 3D printers. Students will design basic shapes and models to gain a better understanding of the design process and software. They will then be given a project or problem to solve using what they have learned.

Programming with Sphero:

<https://youtu.be/DxFNCRYbMe4>

Using small spherical robots, students will understand the basic concepts of programming, problem solving and computational thinking. They will play STEAM-inspired games with the Sphero Play app and eventually advance to programming with Block Based Coding or Javascript in the Sphero Edu app

Summer Reading Skills Programs

This summer, help your child become a confident, enthusiastic reader in the **Summer Reading Skills Programs**, offered by Mercer University, Center for Executive Education and taught by instructors from the Institute of Reading Development.

Strengthen Skills, Build Confidence, Enjoy Reading

These programs teach key reading skills for every grade, from phonics and sight words for younger children, to comprehension, textbook strategies and writing skills for older kids, and everything in between.

Guided by a knowledgeable and supportive teacher, students in these programs experience reading success again and again, developing their skills and building confidence in outstanding books at the right level of challenge for each age.

Your child will build the skills, confidence, and motivation he or she needs to become an avid, enthusiastic reader, who enjoys reading for school and for pleasure.

How the Programs Work

Your child will attend weekly live online classes that build skills and provide great experiences with terrific books - books that are filled with interesting characters, exciting storylines, and engaging themes. Between classes, your child will practice reading and complete fun interactive lessons that develop core skills and build confidence.

An Institute of Reading Development teacher will provide all the support and instruction your child needs to grow as a reader and student. Your child will get a jumpstart on the next school year and be ready to make it a big success!

Let's Discuss Your Child's Reading Development.

Call to speak with a reading program advisor.

[1-800-266-3991](tel:1-800-266-3991)

A variety of weekday and weekend options are available.

Secure Your Child's Spot Today! Class Size is Limited.

ASU-Beebe 2021 Virtual Vanguard Discovery Camp

ASU-Beebe Vanguard Discovery Camp (VDC) will be FREE and held online again this year to accommodate campers and to continue following social distance guidelines, while still enabling everyone to enjoy the creative and interactive aspects of the camp experience. The free courses will be offered in two camp sessions: Monday through Friday, June 7-11 and Monday through Friday, June 14-18. Participants may register for any or all courses offered. Register early for a free t-shirt while supplies last. VDC offers Science, Technology, Engineering, Art and Math (S.T.E.A.M.) modules designed for youth in 4th-8th grades, which introduces the next generation to the world around them in a fun and interactive way, while also providing exposure to vast career fields and technology concepts.
